

Medical Camp on bone density

As part of their MSW student project work, Meghana Rajiv, Miny Mohan and Rajashree, conducted a Bone Density Check Camp at Pakalveedu, the Home for the Elders.

The camp logistics and organizational needs were handled by the Pakalveedu inmates and staff with the support of Paravur Lake and Ithikkara River Protection Council (PIC) personnel and HELP Foundation.

Many thanks to the students and Seena Fredrick (Pakalveedu Manager), Padmajan K S (PIC), Jesmis Joseph and all the inmates of Pakalveedu. The camp received a good response; it was intended for 50 people and catered to 80, from the registered list of 108.

More feedback is welcome, as this was a specific programme for senior citizens.
